Kingtrack; finally one design to suit all needs from Single, Double or Triple tracks. Hand or Cord drawn made to measure - bay windows - bent tracks. See accessories page anything is possible.

King Aluminium

Established in 1984 King Aluminium track is manufactured and owned in Australia. This unique patented curtain tracking system is designed complement all differing curtain requirements. Simplicity and clean lines are what have now made Kingtrack a major supplier to the Australian and New Zealand Markets. A variety of engineering plastics is used according to different functions eg: all Roller Runners & Sliders are made from Acetal for its remarkable slidability. The endcaps from A.B.S. (acrylonitrile butadiene styrene polymer) strong enough to knock on with a hammer. Nylon for flexibility and Glass Fibre for added strength. King Aluminium tracks are extruded aluminium, powder coated or anodised which require little maintenance & Do Not Rust, and are credited to Aust. Standard AS 3902 and International Standard ISO 9002,

Federation Poles

Heritage Poles where King track is concealed behind the Pole, available with hand or cord draw. Heritage Poles come in your choice of colours. Yes that's right you can have custom colours to suit any decor, or use the standard colours Teak, Walnut or Natural. Available in both 35mm & 51mm diameter poles.

Function Dr

Tubeslider

25mm Diameter Extruded Aluminium Rods with adjustable concealed fixing that does not impede the feather light sliding action of the sliders.

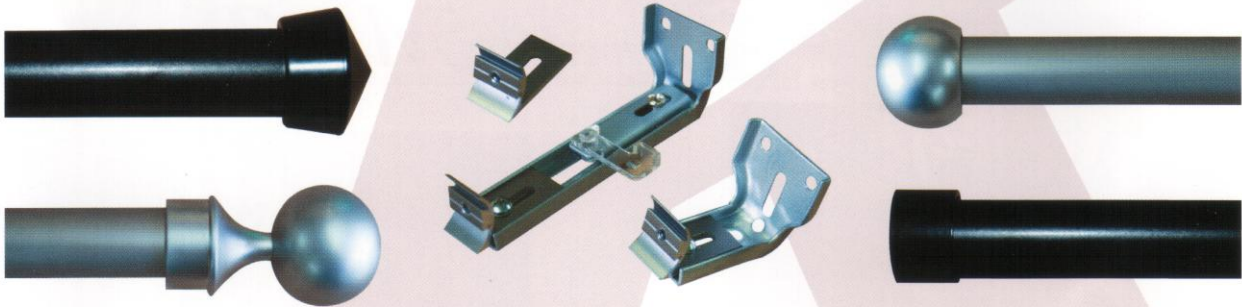

No bracket fixings are visible on the face of the rod giving a smooth neat appearance.

The heavy duty sliders will cope with heavy weight curtains.

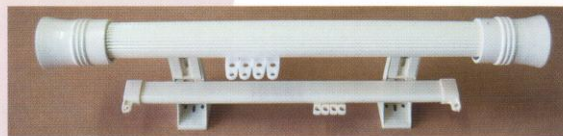

Tubeslider is available in the colour options of Black or Stainless Steel.

Utilising Kingtrack's Leverlock Double Brackets, a hand drawn or cord king aluminium track sits neatly behind the Tubeslider to enhance the product and enable a variety of combinations.

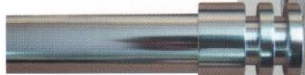

The modern range of finials will finish off unique window treatment.

Supreme Decorator

Gold

Nickel

Black

Ivory

Reeded Silver

Bright Silver

irability & Beauty

Supreme Decorator where the track becomes a Decoration, designed to take the place of Pelmet or Valance. Available in Gold, White, Black, Bright Silver, Ivory smooth or reeded or Nickel finish and can include Single, Double or Triple Track combinations with or without Ringsliders.

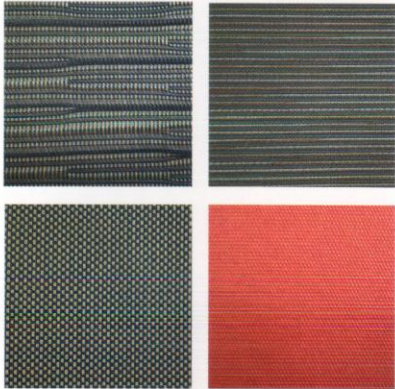

Roller Blinds

Why Have Blinds

Roller Blinds are extremely practical, easy to use and a perfect finish to any window treatment. Fabrics available today offer a whole range of colours, designs and elegance to suit all applications whether it is domestic or commercial. Our suppliers include Bricos, Mermet and Helioscreen.

Block-Out Fabric's:

Available for both privacy and light control. Regardless of the control selection Block-out Blinds are perfect for bedrooms or other area's where Privacy is a must.

Sunscreen Blinds:

Discreet, but effective in any window treatment situation and can be combined with many other window treatment such as Curtains or Pelmet to further enhance your de'cor.

The open weave of sunscreen fabrics allows for both airflow and an open living lifestyle.

They can significantly reduce the build up of heat to provide sustainable pleasant temperatures without the need for air conditioning.

www.kingtrack.com.au

Kingtrack identified the need to provide curtain track brackets which are particularly suited to the Eastern Sea-board. Rust is now a thing of the past.

These brackets which comply to Australian Standard AS3902 and International Standard ISO9002 are all manufactured by injection moulding from fibreglass strengthened nylon, are super strong and as mentioned rust free.

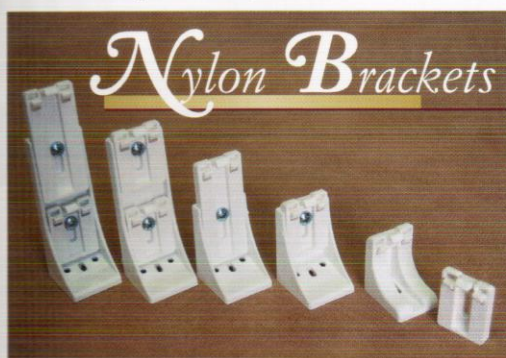

All products in the range are interchangeable and with the clever use of aluminium extension plates, can project up to 240mm to cater for almost any installation requirement.

Mini Track

The Mini Track designed with no brackets, is ideal for Boats, Caravans and situations where space is confined. Mini Track is available in top fix or face fix.

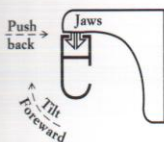

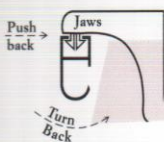

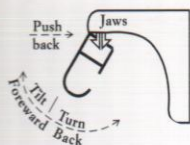

Leverloc Metal Brackets

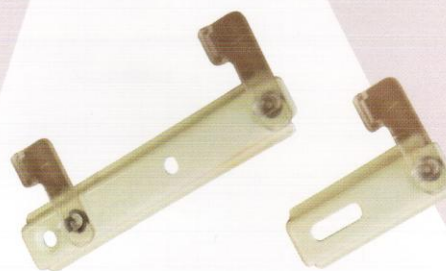

Nylon Brackets

Easy Installation

Easily fitted Snap in Brackets purpose used to various heat resistant and UV stabilised thermo plastics, Specially Designed with varying percentages of Glass Filling, giving strength to the former (main body) & flexibility to the latter (jaws). Simplicity at its best.

Kingtrack Leverloc Metal Brackets are a patented, powder-coated range of metal brackets available in sizes to suit almost every application you can imagine. Patent Number 2006100880 ensures that this product will be unique to Kingtrack for many years. The design ensures the multi function application with most parts being interchangeable as required. Strength and flexibility are key features of these brackets, which comply with both the Australian and International Standards.
